INTRODUCTION

Pardhan Oil Industries Pvt. Limited is a second project of Pardhan family in the field of edible oil industry. The first project, A & S Oil Industries, despite having sizable production capacity was not proving sufficient to meet the growing market demand of its quality products. As such, a need was felt to install a new edible oil processing plant comprising latest technology of edible oil processing and packing facilities comparable to international standards. For this purpose, the highly potential location of Port Qasim, Karachi was selected and the civil work was inaugurated in March 2013. The project was completed in March 2014 and the commercial production was commenced in April 2014. Since then, high quality cooking oil, banaspati and biscuit shortening and vegetable fat is being produced and supplied to the markets all over Pakistan including premier biscuit manufacturers. The company has the capacity to process 250 M. Tons/day edible oil.

FUTURE OUTLOOK

By the grace of Allah, Pardhan Group has become a known business house in Pakistan at very early age attributable to professional and market oriented approach of the management led by Mr. Wazir Ali Pardhan. The management is confident that by providing quality food stuff to the public, the business will further grow by the passage of time.

The management is planning to install an “Oil Extraction Plant” also to make themselves self-sufficient in the production of raw

edible oils. Then the oil seeds will be imported rather than oil which will be produced locally. It will certainly add to the value addition of final product. May Allah bless the management and all associated with Pardhan Group of Industries.
